

# DaVinci Locks

Would you pay \$200 plus an hour of your time to save dozens of hours per year for the rest of your storage management days?

## Why Davinci Locks

### What's the problem?

Someone calls you on a Friday night at 8:00pm "Hey, you put a lock on my unit, I just made the payment and I need in my unit now, it's urgent!"

### How do DaVinci Locks solve the problem?

Give access over phone or text in seconds

## About Davinci Locks

### What are DaVinci Locks?

Serial-coded, and color-coded disc locks with customizable combinations

### How do they work?

You send people the combination code, they remove the lock, and return it to a designated drop box on site

### Who are they for?

If you manage ~50+ storage units and currently use overlocks for delinquent or empty units, you should do this

## Costs

### What does it cost?

One time set-up cost is around \$200, ongoing cost is \$0

### How long does it take?

Locks delivered to your door within a week and set up takes about an hour

### Will it be hard?

No, a third grader could do it

### Will it be worth it?

Would you give up \$5 for an hour to do whatever you want? If yes, it'll be worth it

## Get Started

Order 10 locks at [Davincilockstore.com](http://Davincilockstore.com)

\*OffMarketStorage.com is not affiliated with Davinci Locks, we just enjoy them and want to share with anyone looking to simplify their management - Good luck!
